European NF Conference 2026 - Abstract Submission Topic List

Abstract Criteria

Abstracts of which only part of the data had been submitted at other congresses are allowed for submission. Encore abstracts are also permitted but the scientific committee will make a case-by-case decision.

Abstracts concerning a still ongoing study can be submitted. In case of acceptance, it is of course possible to incorporate the latest findings in the final presentation.

Multiple submissions by one author/author group covering the same study/results are not allowed and will result in rejection. However, submissions of different studies by the same author/author group are permitted.

Non-compliance with the outlined requirements may result in the automatic rejection of the submission.

Furthermore, the reviewers are also mandated to pinpoint abstracts that involve the commercial promotion of proprietary products.

Abstract Submission System

The submission of an abstract is free of charge and must be handled online via the European NF Conference 2026 Abstract Submission System. Abstracts sent by email will not be accepted.

Abstracts must be submitted by the submission deadline **Tuesday, June 30, 2026 (23:59 CET)**. Abstracts still in 'Draft Status' after the deadline will not be considered.

Changes and Corrections
Before the submission deadline, you have the option to revise your abstract including the author block by using the "Edit Abstracts" menu button. After that date, no further amendments will be possible.
If you want to delete your abstract, contact the Congress Office with your request via eunf2026vienna@aimgroup.eu including your abstract number and abstract title.

Withdrawal
If you want to withdraw an abstract already submitted, please notify us via email by **September 15, 2026,** at eunf2026vienna@aimgroup.eu. Please make sure to state the corresponding abstract title and abstract number. Withdrawals after that date will still be accepted, but please note that abstracts may still be included in the abstract book.

Abstract Submission Procedure

Overview

• Read the Abstract Submission Guidelines.
• Enter the European NF Conference 2026 Abstract Submission System (link published on https://eunf2026vienna.com/abstract-submission).
• Follow the steps mentioned below.
• Finalise the abstract submission by pressing the 'Submit' button prior the submission deadline.
• An automated email confirmation will be sent upon submission. If you do not receive the confirmation email within 15 minutes, please contact eunf2026vienna@aimgroup.eu.
• On **Wednesday, September 9, 2026**, the submitter will be notified via email regarding the acceptance status of the submitted abstract. Kindly make sure to check both your inbox and junk folder for the notification.

Step 1: Contact Data

The submitter is required enter all requested contact data.

Step 2: Title

The title should be entered in CAPITAL LETTERS (max. 100 words) and should clearly indicate the nature of the abstract. Do not include authors, institutions, city names, trademarks, company names and locations, websites, email addresses or abbreviations in the title. Special characters cannot be included.

Step 2: Presentation Preference

You can choose your presentation preference. In case of acceptance, the scientific committee will try its utmost to follow your preference when allocating your abstract. Oral presentations will present on stage in one of the lecture halls. Posters will be displayed and discussed in the Poster Area.

Step 3: Topic

At the time of the abstract submission, the submitter must select one single topic to index the abstract.

It is important to carefully select the best matching topic as this choice will determine under which area the abstract will be reviewed and graded. Hence, a wrongly selected abstract topic can lead to a bad score or rejection. The first decision is whether the submitted abstract belongs to the basic or clinical science sector and then choose the appropriate subtopic.

Step 4: Authors' Block
The system will put the submitting person as abstract presenter by default. You can change the presenter to another author during the submission. You may enter up to 15 different co-authors in the authors' block per abstract, including the presenter. A maximum of three institutions can be listed per author.

The submitter certifies and warrants that the list of authors is complete and that he/she has permission from all persons entered as co-authors to be listed in this abstract. All names will be published as entered.

Step 5: Abstract Body
Abstracts must be submitted and presented in English with grammar and spelling accuracy fit for publication. All abbreviations used must be written out at first use.

Abstracts must not exceed 250 words (excluding title and authors), and should be structured as follows:

Background:
Methods:
Results:
Conclusion:

Step 6: Additional Information
One image can be included for the review process, but it **will be removed in all publications**.

Step 7: Review
The system will mark all steps in red colour that need further action before the submission is possible.

Step 8: Submission
Abstracts must be submitted by the submission deadline **June 30, 2026 – 23:59 CET**.
(The abstract can be edited at any time before the submission deadline. After the deadline, no further amendments to the abstract are allowed.)

Late submissions will not be accepted. Abstracts still in 'Draft Status' will not be considered for the review process.

The submitter is required to agree to the following statements (without agreement, the submission cannot be finalised):

- I understand that the abstract will be published as submitted and will not be proofread.
- All authors of the abstract have reviewed the abstract and confirm that all information is correct. It will be possible to edit your submission information until the submission deadline. The authors accept that the content of this abstract cannot be modified or corrected after the submission deadline, and they are aware that it will be published exactly as submitted.

- By submitting the abstract, all authors of the abstract agree to its publication (e.g. conference website, programme, abstract programme, etc.).
- All authors of the abstract warrant and represent that they are either the sole owner of, or have all necessary rights to sublicense, all the information and content in the abstract provided to European NF Conference 2026 and its conference organizers and that publication of the abstract will not infringe any rights, including, but not limited to, intellectual property rights, of any third party.
- All abstract authors grant European NF Conference 2026 a royalty-free, perpetual, irrevocable, and non-exclusive license to use, reproduce, publish, distribute, and display the abstract.
- The abstract submitter is responsible for informing the other authors about the status of the abstract. If the abstract is accepted for presentation, it is also the submitting author's responsibility to confirm or decline the abstract's presentation at the meeting.
- If the abstract is presented at the congress, it may be published on the congress website or elsewhere, either prior to or contemporaneously with the congress and/or in an abstract book that may be distributed electronically.
- The abstract authors acknowledge that the publication of the abstract on any of the congress materials (such as programme, etc.) is dependent on the presenting author's attendance at the European NF Conference 2026 in Vienna, Austria.
- European NF Conference 2026 reserves the right to remove any abstract that does not comply with the above.

Step 9: Editing a Submitted Abstract

A submitted abstract can be edited at any time before the submission deadline. After the deadline, no further amendments to the abstract are allowed.
Use the "Edit Abstract" button in your submission portal to make your changes.
IMPORTANT: you must click the review and submit buttons again in order to SAVE your changes! If not submitted again, the abstract will remain in the DRAFT status.

Reviewer Process

All abstracts will undergo a blinded scoring process. The reviewers have been meticulously selected based on their expertise, ensuring that each is assigned to evaluate abstracts within their respective categories.

Abstracts submitted for consideration must be an original idea, concept, or an improvement or revision of a previous idea. Submissions are peer-reviewed for scientific content, logical presentation, and current interest in the topic within the scientific community.

The Scientific Programme Committee will make the final selection deciding on the presentation format, day, and time for each abstract. No rescheduling or changes will be permitted.

Notification of Abstract Acceptance

All abstract submitters will be notified by email on **Wednesday, September 9, 2026** about the outcome of their abstract submission (accepted or rejected). Please ensure that the email address provided during the submission process is accurate as all correspondences will be made via email.

Accepted abstracts will be scheduled either as **oral presentations** or as **posters**.

If the abstract is accepted, instructions and guidelines concerning the abstract presentation will be provided via email and online.

All expenses (travel, hotel, registration fee. etc.) associated with the submission and presentation of an abstract, are under the responsibility of the presenter.

Publication of Accepted Abstracts

All accepted abstracts will be published as submitted in the Abstract Book of the conference which will be released as digital version prior the conference start.

Abstract Related Presentations Certificates

Onsite presenters of an accepted abstract will receive a certificate of presentation after the congress via email.
